Big Stories

Iteration 2

Updating study materials for EECS courses	
As a student, I want to be able to edit or remove the study materials that I have uploaded.	
Priority: High	Cost: 5 days

Account management for application	
As a student, I want to be able to manage my account like changing the password	
Priority: High	Cost: 3 days

Showing user chosen courses	
As a student, I want to be able to easily navigate through my dashboard where it shows all of the courses that I am currently taking.	
Priority: High	Cost: 4 days

Client Requested story

Search for Courses	
As a student, I want to be able to search for a particular course via a search bar.	
Priority: High	Cost: 4 days

Iteration 3

Switch between themes	
As a student, I want to be able to easily switch between light/dark mode depending on the time of day.	
Priority: Medium	Cost: 3 days

Rating study resources	
As a student, I want to be able to rate a study resource based on how helpful it is to me.	
Priority: High	Cost: 4 days

Bookmarked study materials	
As a student, I want to be able to easily see all of the study materials that I've bookmarked.	
Priority: High	Cost: 5 days

Iteration 2 big story pushed to Iteration 3

Showing user chosen courses	
As a student, I want to be able to easily navigate through my dashboard where it shows all of the courses that I am currently taking.	
Priority: High	Cost: 4 days

Changes in user stories for Iter 2

Pushed the implementation of "Showing User Chosen Courses" to Iteration 3, as we decided to implement that user story along with the User Story in Iteration 3 which is "Bookmarking study materials" because they correspond to the same type of feature.

UPDATED Plan for Iteration 2

Updating study materials for EECS Courses

Add study materials	
Adding study materials for a course	
Priority: High	Cost: 5 days

View study materials	
View study materials of courses	
Priority: High	Cost: 5 days

View study materials by topics	
Study materials of courses categorized by topics	
Priority: High	Cost: 5 days

Account Management for application

View profile information	
Display user credentials	
Priority: High	Cost: 3 days

Change password	
Change password of the account	
Priority: High	Cost: 3 days

Change username/email	
Change the username/email of the account	
Priority: High	Cost: 3 days

Change first name and last name	
Change the first name and last name	
Priority: High	Cost: 3 days

Client requested feature

Search for courses

Search courses by course code	
Search courses via their course code for e.g:- EECS 3311	
Priority: High	Cost: 4 days

Search courses by the course name	
Search courses via their course name for e.g:- Software Design	
Priority: High	Cost: 4 days

search input format hint	
Provide input hint for appropriate search input	
Priority: High	Cost: 4 days

Development tasks assigned in Iteration 1

Angela:

- Refactoring Dashboard and Iteration 1 code
- Connecting database to GUI
- Testing

Ammiel:

- Database
- Refactoring Iteration 1 code
- Testing

Kevin:

- Database
- Search bar implementation
- Refactoring Dashboard and Iteration 1 code

Manasvi:

- Upload feature
- Creating/Instantiating database
- Refactoring Iteration 1 code

Yuvtesh:

- Testing
- Database
- Refactoring Iteration 1 code

Actual time taken for the development tasks

Updating study materials: 7 days

- Add study materials: 6 days
- View study materials: 1 day
- View study materials by topics: 1 day

Account Management for application: 7 days

- View profile information: 2 days
- Change password : 5 days
- Change username/ email: 1 day

Search for courses: 2 days

- Search courses by course code: 1 day
- Search courses by course name: 1 day
- Search input format hint: 2 days
